Stevie Ray Vaughan

Start with P02 for attack and drive, P05 for a clearer clean, and P12 for fuzz and vibe. The amp and cabinet choices approximate the roles heard on the records using the models available in each build.

Texas blues / 01-20

01	**LENNY**	Blackface clean, wet spring
02	**PRIDE & JOY**	Fender-style breakup, TS9, spring. The original recording blended amps.
03	**TEXAS FLOOD**	Full, circuit 808, opto, spring
04	**COLD SHOT**	Fender clean/edge, slow rotary and room for the Vibratone feel.
05	**RIVIERA**	Clean headroom, T4-style opto, tape delay and hall.
06	**TIN PAN ALY**	Blackface, light room
07	**RUDE MOOD**	Tweed-style attack, light TS9 and room.
08	**LOVE STRUCK**	Full, TS 808, slap, spring
09	**SCUTTLE**	Tweed-style edge, TS9 and spring.
10	**STANG SWANG**	Warm clean/edge, light opto and room.
11	**LITTLE WING**	Blackface, tape, plate
12	**VOODOO CHL**	Germanium-style fuzz, vibe and room.
13	**CROSSFIRE**	Headroom, TS9, opto, analog delay
14	**TIGHTROPE**	Headroom, TS 808, short slap
15	**WALL DENIAL**	Full, TS9, plate
16	**THE SKY CRY**	Blackface, TS 808, opto, wet spring
17	**EMPTY ARMS**	Full, light circuit 808, slap
18	**CANT STAND**	Blackface, TS9, fast rotary
19	**TESTIFY**	Full, TS 808, light room
20	**THIRD STONE**	Full, octave fuzz, vibe, plate

Engineer Richard Mullen describes the Fender Vibroverb and Dumble blend on Texas Flood. The Super and Bassman-family voices here approximate the Fender side of that sound.

John Mayer & Albert King

Compare P21 for clean headroom, P22 for edge and ambience, and P31 or P32 for direct attack. The local Two-Rock TS1 represents one amp voice in Mayer's multi-amp approach. The public build uses shared public voices.

John Mayer / 21-30

21	**GRAVITY**	Clean headroom, T4 opto, tremolo and spring.
22	**SLOW DANCE**	Edge-of-breakup drive, analog delay and plate.
23	**VULTURES**	Edge-of-breakup amp, Klon-style drive and room.
24	**NO DOCTOR**	Full, Bluesbreaker, room
25	**DONT TRUST**	Clean Fender-style voice, touch-sensitive filter, analog delay and plate.
26	**BELIEF**	Headroom, Klon, tape, plate
27	**BOLD LOVE**	Full, germanium fuzz, vibe, spring
28	**I GUESS**	Headroom, Bluesbreaker, opto, analog delay, hall
29	**SOMETHING**	Blackface, clean boost, dimension chorus, analog delay
30	**GOOD LOVE**	Blackface, light TS9, slap, room

Albert King / 31-40

31	**BAD SIGN**	Dry voice, light room
32	**CROSSCUT**	Dry voice, no ambience
33	**THE HUNTER**	Full, light room
34	**MANAGER**	Dry voice, more amp gain, no ambience
35	**PLAY BLUES**	Blackface, plate
36	**BLUES POWER**	Dry voice, firmer attack, light room
37	**BLUES SUNUP**	Dry voice, no ambience
38	**MATCH BOX**	Dry voice, light slap and room
39	**STORMY MON**	Blackface, light room
40	**OH PRETTY**	Full, light room

King recalled using Acoustic and Roland solid-state stage amps. The dry Fender-based BluesBox voice is a tonal stand-in for that direct attack. Most King presets keep the drive and modulation bypassed.

Mayer rig: Chad Franscoviak

Mayer filter: Roger Linn Design

References & user slots

The V40 reference rigs retain their effects and models with V48 output trims. Use the A/B slots to compare the selected compressor or drive without changing the rest of the rig.

References, comparisons and USER / 41-52

41	**TWIN CLEAN**	V40 reference. Clean NAM, studio compressor and plate.
42	**TS BLUES**	V40 reference. TS9 into Super 59 NAM with spring.
43	**KLON CRUNCH**	V40 reference. Klon into JCM900 NAM with room.
44	**AB OPTO OLD**	Original opto, compared on the same amp and cab as P45.
45	**AB OPTO T4**	T4-style opto, compared on the same amp and cab as P44.
46	**AB TS9 V40**	V40 TS9 on the shared comparison rig.
47	**AB TS808 LAB**	808 Circuit on the shared comparison rig.
48	**USER1**	Clean starter with an amp and cab. Save your own sound here.
49	**USER2**	Clean starter with an amp and cab. Save your own sound here.
50	**USER3**	Clean starter with an amp and cab. Save your own sound here.
51	**USER4**	Clean starter with an amp and cab. Save your own sound here.
52	**USER5**	Clean starter with an amp and cab. Save your own sound here.

Browse from Play: turn to the preset number, push, turn to preview, then push to load. HOME cancels. Hold FX for input gain, high-pass filter, guitar and USB levels, footswitch mode, group assignments and tuner mute.

In Stomp mode, left toggles group A and right toggles group B. Save group assignments with the preset. Hold both footswitches for the tuner. Saved presets take priority over the factory bank.
